ABOUT US

PhD House Activity Group is a group of PhD students and postdocs at Aarhus University who organise social events for other PhD students and postdocs. Our goal is to strengthen the social networks of Danish and international junior researchers across academic disciplines and cultural backgrounds.

We strive to provide a relaxed and fun setting where you can meet your peers outside of your daily research lab. All our activities are held in English so that everyone can participate. Join one of our events, write us a message or show up at our next general assembly to see how you can participate.

OUR EVENTS

Our events range from game nights in Dale’s Café to yoga and bouldering, wine tasting, GoKart racing, concerts and much more. Wherever your interests are, that’s where we go, and we plan to continue this tradition of seeking out new and exciting experiences in and around Aarhus. Most of our events are free and are held in the evening or late afternoon.

Like our page on facebook and check out our website to stay updated on what events we are currently planning.

When I left Denmark for a position abroad I realized just how much the PhD House Activity Group helped me integrate in Aarhus, and how difficult it is to establish a social network at other universities.

- Filip Sieczkowski, Postdoc at Computer Science
JOIN THE GROUP

Are you looking for a chance to gain useful experience on your CV, increase your career opportunities or just have fun with other PhD’s and postdocs?

The PhD House Activity Group is looking for creative and enthusiastic volunteer PhD students and postdocs that are interested in maintaining and developing a strong community of junior researchers at Aarhus University.

The PhD House Activity Group is run by a board of six members and a few alternates. The board is responsible for the budget, the marketing and the overall organising of the events - however anyone is welcome to organise an event with the assistance of the board.

Being a member of the board is a great way to have fun and socialise while organising a variety of different events. You can join the board by attending our semi-annual general assembly or you can contact the board directly if you have any questions or suggestions.

Our work as PhDs or postdocs is often highly independent and, as a counter balance, it is very nice to team up with the purpose of making people come together. Being involved in the group constantly reminds me how many nice and interesting people there are at AU.

- Fiona Linnea Bach-Gansmo, PhD Student at iNano & Dept. of Chemistry
