What is the International Club?
The aim of the international club is to promote a social environment for foreigners and Danes alike. The language we communicate in is English.

The club is an organisation under the Foulum Staff Club. Once you are a member of the Staff Club you are automatically a member of the International Club.

The International Club was established at AU Foulum in November 2007 and is supported by the Foulum Staff Club and the Graduate School of Science and Technology - GSST.

What does the International Club do?
The club plans, organizes and initiates English-language activities for the benefit of foreign and Danish staff and PhD students. On the agenda are plans for talks, walks, parties and excursions.

Did you know that…?
- External newsletters about food and agriculture with popular science news stories based on research at AU are published monthly in English, and sent to you via email. The news stories and the newsletters can also be read on the English website www.agrsci.org.
- Practical information for foreigners about living and working in Denmark can be found on the website of the Ministry of Science, Technology and Innovation at www.workindenmark.dk.
- English-language books and different magazines are available in the “IC Lending Library” in the area across from the fruit by the canteen in Foulum.
- News, minutes from meetings and other information from the International Club can be found on the intranet. http://intranet.agrsci.dk/SocialeSider/Sider/International%20Club.aspx
